Create API for getting next recommended solution of same category (favourite, recommended or newly added)

upload documents for certain steps in the process like: nda signed, g2m etc

Swiping left on a solution goes to next recommended of same category

Swiping right goes back to the previous solution

Create floating bar when swiping right

mock-ups mobile view detailed page

Being able to add multiple solutions to  
a single sprint/project

create a news feed per scale-up

"Type your question here" button on  
the bottom right side of the screen.  
That is hooked up to our slack or  
whatsapp? Ideally.
